KULTURINITIATIVE – von MARIVA und dem KULTURORT MIEMING

Stay Awake

Is this the sound of silence
or the echo of an endless thought?
The wind's not more than a whisper.
Every songbird's free – I'm not.

Is this the end of a chapter
or the start of something new?
A time of observation and tracking.
I'm afraid of such times, so are you.

Stay awake,
put your ear to the wall so you can hear the whispering!
Awake,
'cause physical isolation's not social distancing!
Stay awake although you're put to bed!

Is this the sound of silence
or the first blossom of spring?
In all this mess there's still love.
He's with him, she's with her and she's with him.

Is this the end of a chapter
and the chance for something new?
It's time now for visions,
a world without "Others", no "We", no "You".

Stay awake,
put your ear to the wall so you can hear the whispering!
Awake,
'cause physical isolation's not social distancing!
Stay awake, don't fall asleep!
Don't fall asleep!
